francisrub.io
https://francisrub.io/
My personal website, portfolio, and online avatar. Lots of creative stuff.

Antares Programming
https://antaresph.dev
Accessible web development learning resources to Filipino developers, using the Filipino language as its medium.

Philippine Consulate General, Calgary (2022 Revamp)
https://francisrub.io/pcg
A design revamp of the official website for the Philippine General Consulate to Calgary, Alberta Canada

experience

IT Supervisor @ DICE205 Digital Corporation
AUGUST 2023 TO PRESENT

I lead the company's entire development team, overseeing resourcing, hiring, training, and performance evaluation. I also handle onboarding/offboarding, conduct code reviews, and support developer growth through structured training plans. For new projects, I also provide initial cost estimates and developer manhour forecast to support the Sales team's proposals.

Software Developer @ DICE205 Digital Corporation
JUNE 2022 TO AUGUST 2023

I maintained and enhanced existing internal monolithic systems for government agencies. I also extended legacy systems' functionality based on emergent business needs.

Software Developer @ SysNet Integrators Inc.
JANUARY 2021 TO FEBRUARY 2022

I enhanced existing internal systems and API endpoints for the company's web-based software, created server applications with NodeJS and Express and Android applications with Java, working in DevOps to build, scale, and deploy applications according to business needs.

Computer Literacy Teacher @ Governor Andres Pascual College
S.Y. 2019-2020, S.Y. 2020-2021

Facilitated computer literacy and programming classes for students Grades 1 to 10 and Media and Information Literacy classes for senior high school students. I also worked on a host of administrative and clerical tasks related to evaluation of student performance.
